Good Afternoon All:

I have responded to a tanker fire in Los Angeles. The city of LA is handling the street and storm drain clean up at has asked us to address the tanker us off which is on private property and they can't spend any money there. It will cost between 50 and \$100,000 to do this cleanup probably no more than that probably last and we have an FPN open for it already. The site address is 210 Slauson Ave. in the city of Los Angeles.

I will be calling the ERRS contract immediately to arrange for this.

Thanks,

Robert
